

# Faster-than-ever MPO testing

Certify MPO-12 cables at 2 wavelengths in just **1 SECOND**

**PXM/LXM**  
MPO OPTICAL LOSS  
TEST SET (OLTS)  
TIER-1 CERTIFIER

Get the length, loss, correct polarity type and error-free referencing for single or multimode fibers

- Dual wavelength on light source
- Insertion loss measurement
- Polarity type validation
- Comprehensive pass/fail results on one page
- Up to 25 km in length measurement
- On-board certification standards with dynamic loss calculator
- Standard 3-year calibration interval and 3-year warranty—exclusive to EXFO!

**FASTEST**

Industry's fastest test speeds

Hybrid contactless connector (PXM)

3-year calibration

4-inch color touchscreen

In-line visual fault locator (VFL)

Long battery life

EXFO's proven robustness

3-year warranty

Field-replaceable battery

FastReporter

Easy reporting
