Fastest inspection in the industry for duplex, single-fiber, and multi-fiber connectors

FIP → OPTICAL HEAD → SMARTIP

Did you know?

By tapping your SmarTip on the FIP-500, pass/fail thresholds will be automatically adjusted to the type of connector under test. This remarkable level of automation prevents threshold selection mistakes and makes fiber inspection easier than ever!

Innovative quick-connect mechanism
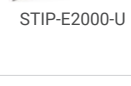

Swap tips in a quarter-turn click—a game-changing innovation. No loose parts, not a second wasted. Tip switching can be done with one hand, if needed. It has never been easier to swap between single-fiber, duplex and multi-fiber tips.
